	Variations: (if any)	None		None
			EDM assumes that it would receive a data file from a MOD-IV Certified Data center location via sFTP or other secure data trasmission method. Total cost includes 8 hours of data merge porgramming and composition development @\$125.00/hour and may be subject to change based on further reiev of the data file received that was created by the MOD-IV Program. If EDM will receive a pre-composed print ready file that would not require data merge programming and comp-osition development the above cost would decrease by \$1,000.00.
