

# DREAM PARK

WORLD CLASS EVENT AND EQUESTRIAN FACILITY

The Gloucester County DREAM Park was created to provide opportunities for horses to have a place to participate in shows and competitions, and also as a place to allow the public to experience the magnificence and beauty of these animals first hand. This park is also a source of educational opportunities for the equestrian community, those with special needs, and for any individual interested in learning more about horses.

Gloucester County is proud to carry on the rich equestrian and agricultural traditions that have been native to Gloucester County since it was founded in 1686. We hope you enjoy your time at the DREAM Park and come back to visit us often.

Sincerely,

Frank J. DiMarco  
Director  
Gloucester County Board of Commissioners

## WELCOME TO THE DREAM PARK NEWSLETTER

The Gloucester County DREAM Park proudly offers a state-of-the-art equestrian complex to all equestrian disciplines and to the community at large.

In 2000, Gloucester County Board of Commissioners felt strongly that there was a need for parkland in this area of the county, and a need for a world-class equestrian facility in our region. Today we are proud to call this location home to the Gloucester County DREAM Park.

## PA Cutting Horse – 2022 Appalachian Circuit Finals October 21-23

What is Cutting? The term cutting refers to the act of separating one cow from a herd of cattle. The sport of cutting involves a horse and a rider and a herd of cattle. One cow will instinctively try to return to the group. Knowing that, a horse and rider team will quietly ride into the herd, select and "cut" off, or separate, one cow from the group (letting the unpicked cows return to the herd behind) and then prevent that cow from rejoining the herd- until they decide to let it go.

Keeping the cow separated requires incredible intelligence and physical ability on the part of the horse. Once the cow is separated, riders are no longer allowed to use their reins.

Trained cutting horses are required to think on their own and anticipate and react to the cow's moves. The competition is judged based on many factors- difficulty and how well the horse anticipates and reacts. This is the only equine competition where the horse is required to think for itself.

See the act in person at the PA Cutting Horse- 2022 Appalachian Circuit Finals on October 21 through the 23.
