VETERANS MEMORIAL CEMETERY OFFERS FINAL RESTING PLACE

The Gloucester County Veterans Memorial Cemetery, located in Williamstown (Monroe Township) provides a final resting place for veterans, their spouses, and eligible dependents. The cemetery serves as a place of healing and commemoration for veterans' families, friends, visitors, and service attendees.

Internment at the Veterans Memorial Cemetery is open to:

- All veterans from Gloucester County who have served Active Duty (except for training purposes) in the Armed Services of the United States during wartime or peacetime, and who were discharged under conditions other than Dishonorable, Undesirable, Other Than Honorable, Bad Conduct, or Uncharacterized.
- Merchant Marine Veterans from Gloucester County who served during World War II.
- Gloucester County veterans who have served in a National Guard or Reserve component of the Armed Services and who have earned full retirement benefits for years of service.
- Members of the regular Armed Forces, National Guard or Reserves who are Gloucester County residents and who are disabled or have died from wounds, accident, or illness incurred while performing their military duties.

Once a veteran is approved for internment, their spouse is also eligible for burial in the Cemetery, as is any dependent child under the age of 21 or any child who becomes disabled before the age of 21.

Pre-registration for internment is required. To learn more about the Veterans Memorial Cemetery and how to pre-register for internment, please visit www.glocestercountynj.gov/286/Veterans-Memorial-Cemetery or scan the QR code. You can also call the Gloucester County Office of Veterans Affairs at (856) 401-7660, email vets@co.glooucester.nj.us, or stop by the Office, which is located at 211 County House Road in Sewell.

GCEMS: ALWAYS AT THE READY

To maximize readiness for timely response to 9-1-1 calls for emergency medical service assistance, each Gloucester County EMS crew conducts a detailed equipment and medical supply check at the start of every shift. Crew members check the operation of the ambulance (or other response vehicle) itself, as well as each individual piece of equipment on the ambulance such as the AED, suction units, chest compression system (LUCAS Device), stretcher, stair chair, stethoscopes, blood pressure cuffs, pulse oximeters, etc. Additionally GCEMS staff members also check each response vehicle for the appropriate quantities of medical supplies utilized to treat prehospital patients. As GCEMS crews work twelve-hour shifts, each ambulance and response vehicle is checked twice per day. This check and re-check work pattern is nearly identical to the readiness function practiced by our partners in patient care at the area Emergency Departments.

GCEMS staff members Ninah Anderson-Napier and Jamel St. John complete a "readiness" check of their GCEMS ambulance, equipment and medical supplies at the start of a recent shift. GCEMS crews are ready to respond to the residents and visitors of Gloucester County 24 hours per day, 365 days per year.

PUBLIC WORKS SPRINGS INTO ACTION

Repair being performed on the sink hole that opened up on CR 581 Commissioners Road in Harrison Township. The soil under the asphalt roadway had washed out next to an old 60" corrugated metal storm pipe that crosses Commissioners Road. The road was opened up, backfilled next to the pipe, and repaved with only a one-day road closure to get the work done.

Storm pipe being replaced on Tomlin Station Road in Harrison Township. This old 18" corrugated storm pipe collapsed during one of the recent storms. The crew installed a new 18" diameter HDPE (high density polymer pipe) across the road. This work was completed within two days and utilized a daytime road closure to complete the work.

BE AWARE OF ELDER ABUSE

World Elder Abuse Awareness Day is observed annually on June 15 across the globe, including the United States. The primary objective of this day is to raise awareness about the millions of older adults who suffer from elder abuse, neglect, and financial exploitation. Shockingly, 1 in 10 older Americans fall victim to abuse or neglect each year, yet only 1 in 14 cases of elder abuse ever come to the attention of authorities. Our older citizens are valuable contributors to our society, and we all have a role in focusing attention on elder justice.

Elder abuse is an intentional act or failure to act that causes or creates a risk of harm to an older adult. Common types of elder mistreatment include physical, sexual, emotional/psychological, or financial abuse, neglect, or self-neglect. Elder abuse impacts people of all ages, identities, and backgrounds.

In Gloucester County, Adult Protective Services (APS) is responsible for receiving and investigating reports of abuse, neglect, or exploitation of vulnerable adults. Anyone can report such incidents, and the reports can be made anonymously if desired. If a report is confirmed and the vulnerable adult is willing to accept assistance, services could be put in place, which may include home care, meal assistance, health care, legal intervention, and case management to enable these vulnerable adults to live safely within the community.

What Are the Signs of Elder Abuse?

If you suspect or are aware of any type of abuse, please call Adult Protective Services at (856) 256-2113 between 8:00 am and 4:00 pm. For assistance 24/7, you can dial 211.

In cases of physical or sexual abuse or medical and mental health emergencies, please call the police or 9-1-1 immediately for evaluation.
