Notice of termination pursuant to this subparagraph shall be effective immediately upon the giving of said notice.

c. If, through any cause, the Contractor, shall fail to fulfill in a timely and proper manner his obligations under this Contract, or if the Contractor shall violate any of the covenants, agreements, or stipulations of this Contract, the County shall thereupon have the right to terminate this Contract by giving written notice to the Contractor of such termination and specifying the effective date thereof. In such event, all finished or unfinished documents, data, studies, and reports prepared by the Contractor under this Contract, shall be forthwith delivered to the County.

7. NO ASSIGNMENT OR SUBCONTRACT. This Contract may not be assigned, nor subcontracted by the Contractor, except as otherwise agreed in writing by both parties. Any attempted assignment or subcontract without such written consent shall be void with respect to the County, and no obligation on the County's part to such subcontractor or assignee shall arise, unless the County shall elect to accept, and consent to, such assignment or subcontract.

The County shall review the certificate for sufficiency and compliance with this paragraph and approval of said certificate and policy shall be necessary prior to this Contract taking effect. Contractor also hereby agrees to continue said policy in force and effect for the period of the applicable statute of limitations following the termination of this Contract, and shall provide the County with copies of certificates of insurance as the certificates may be renewed during that period of time.

Re: 24-21 Resurfacing and Safety Improvements to CR 605, Woodstown Road
From Roundabout to County Line, 17,000± L.F.
Proposal for Engineering Services – Surveying and Design

Dear Mr. Beckett,

Bryson and Yates is pleased to submit this proposal for Engineering Design Services for the Resurfacing and Safety Improvements to CR 605, Woodstown Road from Roundabout to County Line approximately 17,000± L.F..

B&Y has prepared many similar design projects for the County and will bring our expertise and experience to this project. We are familiar with the area, having prepared designs for other similar projects for the County of Gloucester.

We understand the intent of the project is to resurface the roadway with safety and minor drainage improvements. It is understood that road related drainage will be corrected utilizing existing drainage structures/systems and that there will not be any new discharge points.

Any inlets that have grates or curb pieces that do not comply with the current storm water rules will be called out to have the non-compliant components replaced.

B&Y will identify areas of probable sub-grade failures by a visual examination and plotting of the surface conditions.

Guide rail will be surveyed and visual inspected. All guiderail that is not in compliance with current specifications shall be called out to be replaced.

A.D.A. ramps will be surveyed and replaced if not in compliance with current specifications.

It is not anticipated that federal funds will be used on this project.

No utility work is proposed in the scope of the RFP. B&Y will of course notify all registered utilities of the intended project, the 5 year pavement opening moratorium, and document that each has been

notified and requested to complete any planned or needed replacements & upgrades prior to the advertising this project.

The bid documents and plans will conform to NJDOT and County standards for County Aid projects with County Funding.

Your staff will assist in providing some of the front end forms that you have customized for recent projects.

Permits:

This office does not anticipate the need for any environmental permits for this project, however, if needed, this office will provide a separate scope of services.

Engineering Fees

Based on our discussions and the foregoing general scope, we propose to provide the needed engineering design services on an hourly cost basis in accordance with the following "Not to Exceed" amounts.

1. Surveying, Base Plans	\$53,820.00
2. Final Design 90% with Quantities	\$59,085.00
3. Completed Bid Documents	\$7,172.00

TOTAL NOT TO EXCEED	\$120,077.00
----------------------------	---------------------

Schedule

Based on our discussions and the foregoing general scope, we propose to provide the needed documents within 3 months of your authorization.

All work will be billed in accordance with our approved 2024 rates. Invoices and progress reports will be provided and tracked together with, but not a part of, other task orders performed under the Capital Project Management program.

If you find the above to be acceptable, please arrange to have a purchase order or equivalent authorization, sent to my attention.

Very truly yours,
