	Exceptions	Exhibit C: #21 Scene & Exterior Lights: All scene and emergency lights are called to be Whelen C-series. Whelen has discontinued the C series lights so they are no longer available to purchase. As per PO#1 for the existing units in production for GC, Excellance will install Whelen hundred series linear super LED lights with chrome flanges. This change does not affect cost. Exhibit D: #14 Seatin/Upholstery: A fold down backrest for the CPR seat is not feasible with 6 point harnesses. The backrest will be fixed to the back wall at the CPR seat. This is also to match the other Excellance units GC has and the ones that are currently in production. Exhibit D: #20- 125 VAC Electrical System, item (d) Inverter: The Vanner #20-1050CUL-DC inverter with built in battery charger has been discontinued. The inverter has been replaced with a Vanner #LSC12-1100. This inverter is 1100 watts, which is an upgrade from the former and includes a built-in battery charger.
	Will you extend your prices to local government entities within the County.	YES
