

# New Jersey Health Alert Network...

## Local Information Notification Communication System (LINCS)

A no-cost statewide public health emergency notification system that links together local, state and federal partners to protect communities from both man-made and naturally occurring disasters.

Available to all health care professionals including physicians, nurses, emergency medical technicians, first responders, as well as businesses and community partners.

Provides accurate public health information from the New Jersey Department of Health and Senior Services, Centers for Disease Control and Prevention, Local Health Departments, and other reliable sources.

Supports state and local public health emergency preparedness and response efforts including planning and assessment, disease surveillance and investigation, data collection and sharing, emergency communications, community education and outreach and workforce training.

For more information contact:

Carla Kephart, LINCS Coordinator  
Gloucester County Dept of Health & Human Services
